

Extracurricular and Volunteer Services Activities

One thing I have realized about myself is that I place my heart into any activities I show interest in. Hence I do not join anything and everything, nor do I join a bunch of clubs merely to feel accomplished or to have a lot on your resume. Always choose something that interacts with your soul. That way you will find that perfect synergy. And if you wish to expand your horizons, form a club of your own. As the creator of a new club, you can pursue your passions more effectively and be a leader as well.

Over the years of my academic life I have partake in multiple club societies such as:

- Community volunteering clubs (Manchester Parish Library summer school program)

- Scholarship clubs; acceptance by merit and exist for “prestige”

➤ School service clubs

- Special interest clubs and sporting events
